

 **MARQUIS**[®]
The *ULTIMATE* Hot Tub Experience![®]

WORLD CLASS PERFORMANCE

Combining elegant design with practical innovation, our hot tubs deliver The Ultimate Hot Tub Experience™. With over 40 years of meticulous refinement, every spa—regardless of budget—offers world-class performance and exceptional quality. Crafted in Las Vegas, Nevada, Marquis stands apart by prioritizing American craftsmanship and unwavering attention to detail. From therapeutic benefits and ergonomic comfort to ease of use and durability, Marquis hot tubs are designed to enhance the user experience while maintaining lasting value.

THE BIG 3

The “Big 3” embodies the trio of groundbreaking design features that make Marquis hot tubs a class above the rest. While every detail is crafted to deliver The Ultimate Hot Tub Experience™, these three pillars are your gateway to understanding the magic of Marquis and why no other brand compares.

1

HEALING THERAPY

Marquis delivers high-flow, no-sting therapy by using large volumes of low-pressure water for deep muscle penetration without skin discomfort, offering a massage-like experience.

2

CLEAN WATER

ConstantClean™ ensures crystal-clear water with high-volume filtration, cleaning 100% of the water up to 34 times a day in just 2.5 hours. The advanced ConstantClean+™ system enhances this process with automated ozonation and in-line sanitation for added peace of mind.

3

MICROSILK SOFT SKIN

MicroSilk offers a full body cleanse and detox for your body with billions of tiny microbubbles that penetrate the skin. Enjoy cosmetic benefits such as softer skin, reduced irritation and wrinkles, and boosted collagen production.

1
THE BIG 3

HEALING THERAPY

High-flow, No Sting Hydrotherapy

Experience “high-flow, no sting” therapy that soothes muscles and fascia without irritating your skin. Unlike other hot tubs that can leave you feeling itchy or uncomfortable, the advanced high-flow jets provide deep, relaxing relief. Activate the Whitewater-4 jets for thunderous water flows that work wonders on foot and leg pain.

The Crown Series elevates hydrotherapy with Whitewater-4 jets and H.O.T. Zones, delivering targeted high-flow relief to specific muscle groups. The Vector21 Series features Whitewater-4 jets and customizable JetPods, ensuring every jet provides a personalized high-flow massage. The Elite Series enhances relaxation with high-flow therapy and Whitewater-4 jets on select models, while the Celebrity Series offers rejuvenating high-flow therapy designed for everyday comfort.

2 THE BIG 3

CLEAN WATER

Marquis Spas prioritizes clean, crystal-clear water in every model. No matter which spa you choose, you can trust in effortless water care. Experience the difference with TWO powerful systems!

Constant Clean™

Multi-Stage Filtration + Ozone

Offering effortless filtration with a multistage process that removes contaminants. With SmartClean™ software, it automatically schedules clean-up cycles after each use and twice daily when not in use. Ozone is 300 times more powerful than chlorine or bromine, reducing chemical use while purifying water safely and efficiently. The corona discharge ozone with Mazzei injection outperforms UV systems, easing maintenance for hot tub owners.

Standard on all Marquis models

Constant Clean+™

Multi-Stage Filtration + Ozone + In-Line Sanitation

ConstantClean+™ offers top-tier water management, blending advanced vortex filtration with dual sanitation, including in-line sanitation and an ozone. Turning a five-stage process into a nine-stage process. Providing powerful, low-maintenance water care with dual-cartridge in-line sanitation. A mineral cartridge treats water for up to four months, while a sanitizer cartridge gradually releases bromine or SmartChlor® over four to six weeks, ensuring consistently clean and clear water.

Standard on Crown, Vector & Elite

3 THE BIG 3 MICROSILK

Silky, Soft Skin

Transform your hot tub into a rejuvenating skincare experience. Tiny microbubbles deliver oxygen deep into your pores, detoxifying and improving skin health by promoting cell growth, improving circulation, boosting collagen production. This innovative technology helps fight free radicals, kill harmful pathogens, and leaves your skin feeling soft, refreshed, and revitalized.

Stay Warm, Stay Relaxed

Unlike typical air bubbles that rise and burst, cooling the water and dissolving little oxygen, microbubbles stay suspended in the water and implode, keeping heat energy in. The “sauna effect” improves circulation, accelerates toxin release, boosts immune function, relieves stress, and promotes deeper relaxation—giving you the ultimate rejuvenating experience with every soak.

Feel better, Sleep Better

Microbubbles release anions at a therapeutic rate, promoting a deep sense of well-being and relaxation. These ions help neutralize free radicals, improve serotonin levels, reduce pain, and promote lasting calm. The result is a deeply soothing, stress-relieving experience that can enhance sleep quality and leave you feeling completely rejuvenated, both physically and mentally refreshed.

TARGETED RELIEF

Crown Targeted H.O.T. Zone™ Therapy

Designed to target key areas like shoulders, lumbar, and feet for a truly personalized massage experience, each H.O.T. Zone™ delivers deep, precise high-flow therapy for tight muscle groups needing extra attention. The Dynamic Flow Control™ valve makes customization simple—turn the lever towards red for red jets, blue for blue jets, or anywhere in between to activate all the jets in your seat.

Vector21 Jetpod Massage Seats

Indulge in high-flow hydrotherapy for unrestricted water flow. Directional Jetpods deliver focused relief, Orbital Jetpods offer rotating sport-massage action, and Conal Jetpods create soothing Swedish-style motion. Variable Velocity Valves™ (V3) let you throttle 0-100% of a pump's water flow to specific seats, with 3-5 V3 controls positioned near the seats they activate for easy, personalized adjustments.

POPULAR OPTIONS

SILKY SOFT SKIN

Soaking in a hot tub with MicroSilk® is like indulging your entire body in an oxygen facial. It deeply hydrates and moisturizes your skin, leaving it silky smooth while helping to reduce fine lines and wrinkles.

SEAMLESS SOUND

Marquis Spas offers a variety of audio systems, including the Bluetooth®-enabled option like the Crown Collection's Audio System, Cosmic™ Audio, and Motown™ Audio. Control is available through the spa's display or via mobile devices.

CONTROL MY SPA™

Take control of your spa anytime, from virtually anywhere. Monitor your spa's status, adjust settings, and set up personalized alerts—all from your mobile phone. Whether you're at home or miles away, convenience is always at your fingertips.

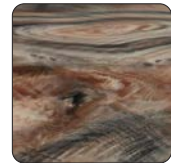

ENVIRONMENTS ACCESSORIES

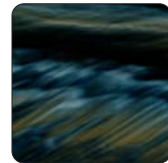

Enhance the look of your outdoor space with Environments, designed to match the color palette of your hot tub. Choose from one-step, two-step or stylish storage benches to keep towels or other essentials close at hand.
